

Kevin Cushing
Stakeholder Relations Manager
Stakeholder Relations / Complex Project Management

June 1, 2015

Dear Neighbor,

As you may know, National Grid is undertaking a project on Rock City Road in the hamlet of Rock City Falls to increase capacity and enhance the reliability of its electric system. The project calls for the construction of a new 34.5 kilovolt (kV) sub-transmission line and is reflective of National Grid's commitment to best serve our customers.

In order to answer any questions the public may have, National Grid will be conducting an informal "Open House" session. National Grid representatives will be available to discuss the project and answer any questions from the public. Details of the Open House are as follows:

National Grid Open House

Milton / Rock City Falls Fire Department
1119 Rock City Road, Rock City Falls, NY
Tuesday, June 23
5 pm to 7 pm

If you have any questions, or would like more information about the project, please contact Erin Gryniak, Public Involvement Specialist, at 518-281-2500 or info@capitalregionreliability.com, or visit the project website at www.capitalregionreliability.com.

Thank you,

A handwritten signature in blue ink that reads "Kevin Cushing". The signature is fluid and cursive, with a large loop at the end.
